

24 PORTS RACK MOUNTABLE PATCH PANEL LIU WITH SPLICE TRAY

Product type:

1U type . The panel can be changed into different port, such as SC, LC, FC ect, 12port, 16port and 24port.

Product structure:

cable terminal box is composed of a casing, internal components, optical fiber joint protector is composed of 3 parts.

Products Description:

- 1 Shell:** the shell should be able to easily open, convenient installation; shell should be used for the cable metal component high pressure protection grounding lead out device.
- 2 Support:** main body structure, used for the internal support.
- 3 Set fiber discs:** for in order to store optical fiber connector (and protection) and the remaining optical fiber, and have to continuously provide markers and convenient operation, easy identification of fiber space.
- 4 The fixing device for cable jacket:** fixed cable strengthen member, fixed and fixed wiring pigtail.
- 5 Materials:** cable terminal box parts all use material should have anti-corrosion performance, such as no antiseptic properties of the electrostatic spray processing; compatibility between physical, chemical properties of stable materials and materials.
- 6 The box body is made of cold rolled steel plate,** the surface electrostatic spray, color uniform, convenient construction.

- 7 The box body with frame type, convenient and quick assembly and disassembly.
Set fiber disc to overlay reversible, flexible turning, set fiber plate, ensure the remaining**
- 8 optical fiber curvature radius is larger than 37.5mm when the coil.**
- 9 Unique structure, reasonable layout, there is enough operation space.**
- 10 Import cable inlet is equipped with an adjustable clamping ring and stiffener, can be easily adjusted according to the size of the cable, until the locking.**
- 11 The number of cores 1-12 core, based on user demand.**

Product Features

- ◆ **High quality construction and finish**
- ◆ **Simplex or Duplex variants**
- ◆ **Complete with Fibre management kit**
- ◆ **Available in MM and SM**
- ◆ **Coupling options: FC, SC, ST, LC**
- ◆ **Available in 1U sizes**
